For digital images the use of software tools for photo editing is allowed according to the specifications described below:

Allowed:

- Use the clone stamp to clean them from any tiny flaws, suspended particles. This does not include the removal of objects as divers, fish, etc., or delete the background to make it black.
- Adjusting brightness, saturation and contrast, color temperature, sharpness, tonal adjustments, adjustments of white balance, clarity and vibration within acceptable terms.
- Rotation, reflection vertical / horizontal.
- the image can be cropped up to a maximum 20% of the original size.

Not allowed:

- photomontages or image overlapping in post-production,
- mats, frames and signatures can not be placed on images
- double exposures is not permitted,
- objects can not be delete from images,
- it is not allowed to paste portions or entities from other images (eg fish, divers, or flares to simulate underwater torches),
- excessive blurring or dimming of the background (vignetting, etc.).

RAW file or original file of the original camera , will be asked to be provided for winning image.
